

D:/project/PengGe/client
_server/src/common/timespan.c

```
graph TD; A["D:/project/PengGe/client_server/src/common/timespan.c"] --> B["sys/time.h"]; A --> C["linux/errno.h"]; A --> D["stdio.h"]; A --> E["timespan.h"];
```

The diagram illustrates the header file dependencies for the source file `timespan.c`. A central box at the top represents the source file, with four arrows pointing downwards to four separate boxes, each representing a header file that the source file includes.

sys/time.h

linux/errno.h

stdio.h

timespan.h
